ABOUT ME

I am the student of computer science at computer science department of University of Engineering and Technology, Lahore. I have the great skills of full stack web development in MERN Stack with some more valuable experience in React JS . Moreover, I have core knowledge about the flutter for mobile applications and knowledge about the Material UI., Bootstrap and Tailwind CSS.

WORK EXPERIENCE

PROJECTS

- **MCU Avengers Fan Hub in MERN Stack.**   2023

Worked on avengers fan hub website for the users to get the knowledge about the MARVEL Avengers. There is also a quizz to test the knowledge of user about avengers. I worked on bootstrap in it with react js.

- **Rental Cars Management System in MERN** 2023

Worked on rental cars management system for the users as admin, employee and customers to provide them a user-friendly and robust app to do reservations and manage them. I worked on material ui in react js.

- **Hotels Booking App in Flutter**   2023

Worked as a member of a team on hotels booking app for the users as admin and customer to provide them user-friendly and robust app to do bookings and manage them. I used firebase in flutter along with shared preferences and sqlite in flutter.

- **TODOS App in MERN Stack**   2023

Worked on todos list app for the users to manage their todos within their due dates properly and also mark their tasks or todos as complete. I worked on tailwindCSS with react js.
